

DSH PSYCHOTROPIC MEDICATION

Operational Procedures

INSTRUCTION:

The DSH Psychotropic Medication Operational Procedures is a single document but has been chaptered into individual files organized by topic. Clicking on a given file will select or open the file. Although this organization of the DSH Psychotropic Medication Operational Procedures is designed for computer screen presentation, the files can be printed. Printing them in numerical order will result in a copy of the operational procedures suitable for storage in a ring binder. Use of tabs for the chapters makes them easier to find in print versions.
